## Pete Hooper

Pete Hooper's passion for construction began in high school and continued in college, where he worked weekends and summers in various aspects of residential construction including labor, landscaping, electrical, plumbing, metal fabrication and carpentry work. After obtaining his mechanical engineering degree in 1987, Pete formally started his construction career in the commercial construction field, in which he worked for over 12 years. This experience included supervising alternative energy projects as a Peace Corps Volunteer in the Solomon Islands, scheduling and cost control of petro-chemical projects for Ralph M. Parsons Co., management of sewage treatment facility expansion projects for the LA County Sanitation Districts and supervising commercial and industrial projects for Hensel Phelps Construction Co. In 2000, Pete founded Hooper Construction & Remodeling, Inc. which is focused on high-quality residential construction and remodeling. This allows Pete to work on projects that provide him with more personal satisfaction and to commit to the high quality inherent in his work.

In partnership with Cooley Godward Kronish, Pete has acted as a Construction Captain for Rebuilding Together Peninsula each year since 2000. In 2009, Pete teamed with the San Jose Sharks, The Sharks Foundation and many subcontractors and suppliers to construct the Shark House for Dreams Happen.
