OUR
TEAM

MISSION

Bringing volunteers and communities
together to improve the homes and lives
of low-income homeowners.

VISION

A safe and healthy home for every person.

DEAR FRIENDS,

Robert McKee said, “storytelling is the most powerful way to put ideas into the world today.” In fact, storytelling has been used to communicate ideas, inspire others, and change the world for millennia. As I begin my journey as Rebuilding Together Peninsula’s Executive Director, I am excited and honored to support the agency’s long tradition of transforming lives and look forward to sharing our stories.

At Rebuilding Together Peninsula (RTP), we are regularly inspired by the impact we have and the stories we can tell as a result. Whenever we witness a volunteer swing a hammer or stroke a paintbrush, or a homeowner revel at the site of their home transformed by the hands of strangers, it creates a moving story. And our stories are not just about creating safe and healthy homes, but of instilling hope, contributing to preserving housing and providing economic stability for generations to come.

This annual report is our story. Inside you will read about how Rebuilding Together Peninsula harnesses the power of volunteerism to help neighbors in need and how, with your partnership, we can ensure every household, regardless of income, is safe. You’ll read about Robert, an Army veteran whose century-old home fell into disrepair due to his health and mobility issues and the impact repairs made during our annual National Rebuilding Day have had on his life. And about Larry, one of this year’s recipients of the Wollenberg Award for his 15 years of service helping transform homeowners’ lives. I think you’ll be inspired by our efforts not just to repair homes, but to restore communities, and rebuild lives.

So, on behalf of our board, staff, and, of course, our homeowners, I want to thank you for your investment in our work. I also want to thank RTP’s

outgoing Executive Director, David Cattivera, for his outstanding service. I am grateful for the progress the agency made under his leadership.

I feel fortunate to be stepping into our story during our 30th anniversary year with a strong, dedicated staff and so much long-time support from dedicated volunteer board members and community members. With that, I’m confident we will continue to change the lives of our neighbors for years to come.

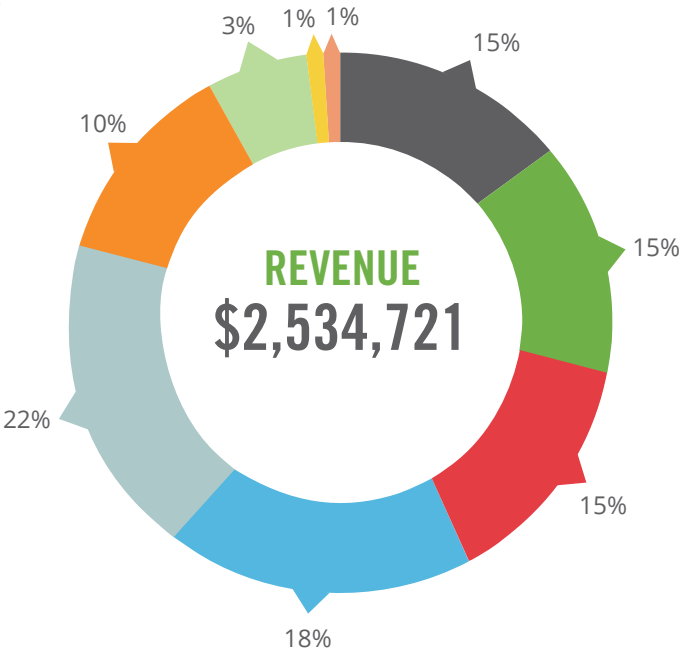

Sincerely,

Melissa Lukin
Executive Director

HOMEOWNER STORY

Since 1983, Bob has called his 103-year-old house in Redwood City "home". Originally a renter, he decided to invest in owning the property in 1999. "It was a chance to get ahead," Bob explained, "a savings account for me and for my grandkids really." In 2015, he successfully finished paying off the house, but illness and financial constraints prevented him from attending to necessary home maintenance.

Bob is a military veteran who translated his experience after leaving the army into managing his own handyman business. He served the community in this way for 30 years but in 2000, the Veterans Affairs office declared Bob disabled due to heart and lung health problems, causing him to close his business. At the time, Bob's home was riddled with critical safety issues that hadn't been addressed since the house was built in 1915. But Bob's physical limitations and small fixed income made repairing the house financially and physically impossible. Among other repairs, the century-old home was in dire need of new windows and weatherization. "When the wind blew, it felt like there was no wall there, like it was blowing straight through," Bob described.

With the support of Woodside Priory School and Stanford Catholic Community, Bob's home was transformed on National Rebuilding Day (NRD). New windows were installed to improve insulation throughout the house and the entire electrical system was upgraded for the first time in decades. The old front door was replaced to make the home more secure and the bathroom and kitchen were repainted to make the rooms cleaner and easier to maintain. The home's exterior was painted to seal the wood siding against dry rot and landscaping around the property created low-maintenance yards. The broken deck staircase was repaired to make entering the home safer and, much to Bob's delight, a cement walkway was built from the front sidewalk to the backyard. Previously, Bob's mobility scooter could not traverse his yard's dirt terrain so navigating it from its parking spot in

the backyard to the front sidewalk required two people to lift the scooter over dirt and other obstacles.

Bob can't go anywhere without his scooter because of his disability. Before NRD, he was frequently confined to the inside of his home. Today, he can safely navigate his property again and uses his newfound independence to take the scooter out into the neighborhood as he pleases. Bob loves being outside now as it's one of the few places he can go on his own.

In addition, Bob secured home insurance for the first time since purchasing his house almost 20 years ago thanks to the repairs. Previously, he struggled to insure the property because the electrical system dated back to the house's creation in 1915. Now, Bob is able to protect the financial asset he intends to pass on to his grandchildren one day. "RTP solved the problem for me," Bob glowed.

Bob had a great time on NRD, driving around on his scooter striking up conversations with the volunteers. Moreover, he is very appreciative of his home's transformation. "It makes me feel a little better. I don't feel like I'm living in a sewer or a dump or a place that's horrible. Thank you very much," Bob shared.

Rebuilding Together Peninsula is proud to have joined the community in restoring Bob's home into a safe and healthy living space.

★ *Did you know?* Bob is one of 100 veterans RTP served from 2016–2017.

PROGRAM OVERVIEW

Rooted in the belief that community starts at home, Rebuilding Together Peninsula provides critical repairs to the homes and community centers of low-income neighbors in San Mateo County and northern Santa Clara County. We provide neighbors who lack the financial means, technical expertise, and often, physical ability to repair their living spaces an opportunity to lead safer, healthier lives in houses that feel like home. Our impact extends beyond the individuals served to preserve and revitalize vulnerable neighborhoods across the Peninsula.

NATIONAL REBUILDING DAY

National Rebuilding Day (NRD) is our longest standing program tradition, occurring each year on the last Saturday of April. It is the culmination of a year's worth of planning that restores dozens of homes and community facilities each year. In 2016, NRD rehabilitated the homes of 37 families and 14 community centers and nonprofit facilities.

With sponsorship from 43 private and community group sponsors, volunteer support from 1,479 volunteers, and more than \$180,000 of in-kind donations, we created safe and healthy living environments in 10 cities across the Peninsula.

SAFE AT HOME

Safe at Home (SAH) is our year-round home repair program. Originally launched in 2010, SAH provides critical repairs and modifications that range from minor plumbing and electrical work to grab bar installation and other fall safety prevention measures. In 2016, our SAH repair team rehabilitated 157 homes, impacting the lives of 276 individuals.

TEAM BUILD

Our Team Build program offers community-minded corporations and service organizations opportunities for volunteer participation that are customized to meet the needs of the sponsoring group. Our Team Build season takes place June through October. In 2016, Team Build provided critical repairs at six homes and two community centers with the help of more than 200 volunteers from five sponsor groups.

At the Stanford Shopping Center, Rebuilding Together Peninsula hosted its 13th biennial Dreams Happen Gala and Playhouse Auction on June 3rd, 2017. More than 350 guests attended, indulging in cocktails and a moonlit dinner catered by the restaurants of Stanford Shopping Center and enjoying the playhouse auction led by NBC Bay Area Proud Reporter Garvin Thomas and Warriors “Hype Man” Franco Finn. For the first time in RTP history, guests took part in our Drinks Happen Afterparty where they enjoyed decadent desserts, an ice luge, photo booth, live DJ, and Nitro-Man!

Thirteen playhouses were auctioned off to eager bidders who have since gifted the playhouses to their awestruck children and favorite charities. By the end of the evening, our community raised more than \$400,000—funds that will finance our operations and programs over the next two years. Don't miss Dreams Happen 2019, coming to the Peninsula community June 2019!

FUTURE LEADERS COUNCIL

Rebuilding Together Peninsula's Future Leaders Council (FLC) is a group of promising leaders between the ages of 22 and 37 who support RTP's mission by demonstrating passion for safe and healthy homes, community revitalization, and preserving affordable housing.

WHO WE ARE

The FLC's purpose is to help raise visibility of RTP's work and support the programs through volunteer opportunities, fundraising initiatives, and member-led events. RTP's goal is to develop the next generation of philanthropic leaders committed to ensuring their neighbors are living in safe and healthy homes.

The Future Leaders Council convened for its inaugural year in 2016. In their first year, the 11-member Council organized two repair projects, volunteered on National Rebuilding Day as project captains, runners, picnic volunteers, and videographers, and hosted RTP's first-ever Drinks Happen Afterparty fundraiser. Collectively, the Council raised more than \$2,000, donated \$23,000 of in-kind services, and volunteered hundreds of hours to help build safe and healthy neighborhoods for our Peninsula community.

Interested in giving back to your community while learning the ins and outs of serving on a nonprofit Board of Directors? We'd love to meet you! Please email info@rtpeninsula.org to learn more about joining the FLC.

THE WOLLENBERG AWARD

The Wollenberg Award is presented annually to those who provide extraordinary resources and leadership to Rebuilding Together Peninsula. The 2016-17 award is proudly presented to Michael Patrick Partners and Larry Hu.

MICHAEL PATRICK PARTNERS

Not all Rebuilding Together Peninsula (RTP) heroes don hammers in service of their neighbors in need. Michael Patrick Partners gives back to our community by helping with the all-important task of sharing our story.

Michael Patrick Partners is a San Francisco-based creative agency best known for stewarding E*TRADE from startup to market leader. Its expertise includes brand development, brand strategy, design, and marketing campaigns applied to strengthen and differentiate a market presence at any business lifecycle. Since the company's launch in 1979, co-founders Daniel Patrick O'Brien and Duane Michael Maidens have made partnering with nonprofits part of their mission. "We have a long history of providing work on a pro-bono basis when the cause pulls at our heartstrings," Dan gleamed. "We're a part of the community, so we participate—it's important to give back."

In 2012, RTP invited Dan O'Brien to join our Board of Directors and for the last six years we've had the privilege of incorporating his industry expertise and talented team's work into our marketing efforts. Michael Patrick Partners has donated their time and resources to support countless projects for RTP, including our website redesign, creating event logos and marketing materials for our 25th Anniversary and Dreams Happen fundraiser, and designing banners, T-shirts, letterhead, and invitations. Since 2015, they've been the creative genius behind the design of our annual reports. The marketing strategy and brand awareness that Michael Patrick Partners brings to the table is unique and irreplaceable in its impact on RTP. Developing a

cohesive brand and relevant marketing collateral is a strategic and resource-intensive process that RTP excels at because of Michael Patrick Partners.

To Dan, the importance of RTP's work and Michael Patrick Partners' involvement in the Peninsula community was immediately apparent after being on-site for National Rebuilding Day. "The need for RTP is obvious—it's mind-boggling. I remember helping with a trailer park and there were holes in the floor of one unit, you could see through the floor to the ground," Dan recounted. "When I realized my time would have an impact on people's lives and their situations—I made a commitment to get involved."

Michael Patrick Partners' appreciation of the community effort at the heart of RTP's work keeps the agency involved year after year. "I'm amazed how generous RTP people are with their time and how much gets done when someone is dedicated to instigating change in the community," Dan shared.

The RTP team is thankful for all that Michael Patrick Partners does to help find innovative ways of sharing our story and inspiring support from the community. They modestly hesitated to accept this award, but we are confident and excited in our celebration of the agency's contribution to our organization. Thank you, Michael Patrick Partners!

★ **Did you know?** The Wollenberg award is named after two of RTP's founding members—Katrina Wollenberg and David Wollenberg—who helped establish RTP nearly 30 years ago and remain key supporters today.

LARRY HU

Rebuilding Together Peninsula's (RTP) work is described as a "neighbor helping neighbor" endeavor, a harkening to our volunteer-driven service model and individualized service commitment to neighbors. If there's a member of the RTP community who embodies this spirit most, many might argue that person is Larry Hu.

In 2002, Larry joined RTP as a general project volunteer. Invited by the Catholic Community at Stanford (CCAS) to build a rehab center's garden in Palo Alto, Larry found himself shovel-in-hand on a Saturday morning beside then-Executive Director Seana O'Shaughnessy. "It was really neat," Larry recounted, "Here was a higher-up in the organization and she was there just hauling around dirt!" Enchanted by this community spirit and the satisfying opportunity to make a difference in just one day, Larry embarked on his RTP journey.

He volunteered again with CCAS one month later for our 2002 National Rebuilding Day (NRD) and has participated in every NRD since. He's held every volunteer leader role possible, serving five years as a Volunteer Captain before leaping to Construction Captain in 2012.

"I'm an electrical engineer; I don't have any experience with construction other than painting my house," Larry confessed. But a decade of volunteering with RTP and learning different skills coupled with his passion for touching the lives of those around him prepared Larry well for his successful NRD project track record.

Larry's voracious learning complements his tenacious on-site attitude. He sees every project through, no matter the challenges. Whether he's spending four weekends hauling debris for a neighbor or braving rain after work to cover an entire house in drop cloth to protect a painting project, Larry goes the extra mile. But connecting with neighbors is Larry's true RTP cornerstone. He shared that "seeing in their faces the transformation that their house made and that they really enjoyed the fruits of your labor" is one of his main motivations for volunteering.

Larry is never just on-site for a day of service; he shows up every year "to make an impact where we change the course of [a neighbor's] life." His countless memories of the neighbors he's worked with exemplify this sentiment. Larry distinctly remembers one neighbor's termite-riddled home; so poorly insulated she slept in her kitchen to stay warm: "She was still determined to stay independent and live in the house she's lived in since the '70s. It looked like there were a bunch of fond memories of the place from all the pictures she had on the walls. That's her home. We impacted her enough that she could stay there and live a little safer."

Larry loved helping this neighbor. Beyond the impact of the transformative repairs he helped complete, Larry is most appreciative of the evenings he spent after work prepping her home and simply enjoying each other's company.

After 15 years of service, Larry intends to continue his RTP volunteer tradition. We are deeply grateful for his dedication to our community. The RTP team is delighted to celebrate him and all of his contributions to our neighbors in need with this year's Wollenberg Award. We appreciate you, Larry!
